LACTEEZE DROPS
PRODUCT INFORMATION

LACTEEZE CONTAINS NATURAL LACTASE ENZYMES TO ASSIST THE DIGESTION OF LIQUID DAIRY INCLUDING BREASTMILK & BABY FORMULA.

SPECIALLY FORMULATED TO CONVERT LACTOSE IN BREASTMILK, FORMULA AND OTHER LIQUID DAIRY PRIOR TO CONSUMPTION.

Product information

Available in 7ml and 15.5ml sizes.
Safe during pregnancy and when breast feeding.
All Natural.
No preservatives, artificial colours or flavours.
Dairy, gluten, egg and nut free.
Suitable for vegetarians.
Certified Kosher.

How they work

Lactose intolerance occurs when the body produces insufficient levels of lactase enzymes to digest the amount of dairy eaten. The undigested lactose remaining in the gut causes the unpleasant symptoms of bloating, excess gas or wind, abdominal discomfort and diarrhoea. Lacteeze Drops work by converting the lactose in liquid dairy into simpler, more easily digestible milk sugars before it is consumed.

Directions for use

Liquid Dairy: Add 5 drops of Lacteeze to 1 litre of milk and refrigerate for 24 hours. This will convert 70-80% of lactose. To convert more, refrigerate for longer or add more drops.

Breastfeeding: Express a few tablespoons of breastmilk into a sterilised container and add 4 drops of Lacteeze. Shake well and wait for 5 minutes before giving mixture to baby. Breastfeed immediately after.

Bottle feeding: (Expressed breastmilk or Baby Formula) add 4 drops of Lacteeze per 50ml of warm feed, shake well and wait 30 minutes prior to consumption. Do not refrigerate.

Advanced preperation of bottles: Add 2 drops of Lacteeze per 50ml of warm feed, shake well and wait 5 minutes before refrigerating for a minimum of 4 hours. Converted breastmilk may also be frozen at this stage.

Ingredients

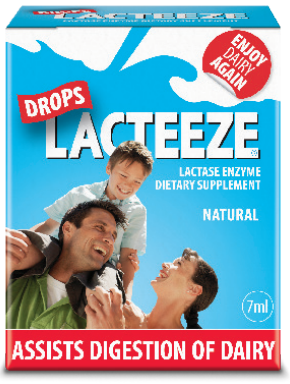

Lactase (k.lactis, derived from yeast), glycerol.

Storage

Do not use if security seal is broken.
Store in a cool, dry place at room temperature.
Refrigerate once opened.
Keep out of reach of children.

Cautions and Warnings.

Not to be used in the management of dairy allergies.
If symptoms persist consult your healthcare practitioner.
