

LACTEEZE[®]

CHILDREN'S

PRODUCT INFORMATION

LACTEEZE CHILDREN'S TABLETS CONTAINS NATURAL LACTASE ENZYMES TO ASSIST THE DIGESTION OF DAIRY PRODUCTS.

SPECIALLY FORMULATED FOR CHILDREN OVER TWO YEARS WITH LACTOSE INTOLERANCE OR LACTASE DEFICIENCY.

Lactose intolerance occurs when the body produces insufficient levels of lactase enzymes to digest the amount of dairy eaten, resulting in bloating, excess gas, abdominal discomfort and diarrhoea.

Lacteeze Children's strength tablets contain lactase enzymes (beta-D-galactosidase) to supplement the body's supply of lactase enzymes.

Product information

- Strength: 3,000 ALU
- All natural
- Natural strawberry flavour
- No preservatives, artificial colours or flavours
- Yeast, dairy, gluten, egg and nut free
- Suitable for vegetarians
- Certified Kosher
- Available in 100 chewable tablets
- TGA listed: AUST L 12131

Directions for use

Chew or swallow 1 - 2 tablets just before consuming dairy. Adjust the dose to suit individual needs.

Lacteeze Children's should be taken every time your child consumes dairy products.

Lacteeze remains in the digestive system for about 45 minutes. To consume more dairy after this time we recommend the dose is repeated.

Ingredients

Dextrose, microcrystalline cellulose, lactase (3,000 ALU), calcium stearate, strawberry fruit crystals, citric acid, natural flavours and natural colour.

Active Ingredient

Each chewable tablet contains Tilactase 36mg. Sourced from corn.

Storage

- Lacteeze Children's does not need to be refrigerated.
- Store in a cool, dry place at room temperature.
- Do not heat above 30°C or freeze.

Cautions and Warnings

- Product contains glucose.
- Not to be used in the management of dairy allergies.
- If symptoms persist consult your healthcare practitioner.
