

LACTEEZE

INFANT DROPS

PRODUCT INFORMATION

LACTEEZE DROPS CONTAINS NATURAL LACTASE ENZYMES TO REDUCE THE LACTOSE CONTENT OF LIQUID DAIRY PRODUCTS.

SPECIALLY FORMULATED TO REDUCE THE LACTOSE CONTENT OF MILK, BREASTMILK, FORMULA AND OTHER LIQUID DAIRY PRODUCTS.

Lactose intolerance occurs when the body produces insufficient levels of lactase enzymes to digest the amount of dairy eaten, resulting in bloating, excess gas, abdominal discomfort and diarrhoea.

Lacteeze Drops convert the lactose in liquid dairy products into simpler, more easily digestible glucose milk sugars before it is consumed.

Product information

- Safe during pregnancy and when breast feeding
- All Natural
- No preservatives, artificial colours or flavours
- Dairy, gluten, egg and nut free
- Suitable for vegetarians
- Certified Kosher
- Available in 15ml size.

Directions for Use

Breast Feeding:

- Express 2 tablespoons of breast milk into a sterilised container.
- Add 4 drops of Lacteeze and mix well.
- Give mixture to baby then breast feed as normal.

Bottle feeding: (Breast milk or Formula):

- Add 4 drops of Lacteeze to baby's warm feed (not hot).
- Mix well and wait 30 minutes before feeding to baby.
- Do not refrigerate.
- Discard any unused feed.

Advanced preparation of bottles:

- Add 2 drops of Lacteeze to baby's warm feed (not hot).
- Mix well.
- Refrigerate for a minimum of 4 hours and use within 24 hours.
- Warm to feeding temperature and feed baby as normal.
- Discard any unused feed.

Milk:

- Add 5 drops of Lacteeze to 1 litre of milk and refrigerate for 24 hours. This will convert 70-80% of lactose. To convert more, refrigerate for longer or add more drops.

Ingredients

Lactase (derived from yeast), glycerol.

Storage

- Do not use if security seal is broken.
- Store in a cool, dry place at room temperature.
- Refrigerate once opened.
- Keep out of reach of children.

Cautions and Warnings

- Not to be used in the management of dairy allergies.
- If symptoms persist consult your healthcare practitioner.
- If diarrhoea persists for more than 6 hours, seek medical advice.
