

DOUBLE STRENGTH

PRODUCT INFORMATION

LACTEEZE DOUBLE STRENGTH CAPLETS CONTAINS NATURAL LACTASE ENZYMES TO ASSIST THE DIGESTION OF DAIRY PRODUCTS.

SPECIALLY FORMULATED FOR ADULTS WITH MODERATE TO SEVERE LACTOSE INTOLERANCE OR LACTASE DEFICIENCY.

Lactose intolerance occurs when the body produces insufficient levels of lactase enzymes to digest the amount of dairy eaten, resulting in bloating, excess gas, abdominal discomfort and diarrhoea.

Lacteeze Double Strength caplets contain lactase enzymes (beta-D-galactosidase) which when taken orally supplement the body's supply of lactase enzymes.

Product information

- Strength: 9,000 ALU.
- Safe during pregnancy and when breast feeding
- All natural
- Vanilla flavour
- No preservatives, artificial colours or flavours
- Yeast, dairy, gluten, egg and nut free
- Low in salicylates
- Suitable for vegetarians
- Certified Kosher
- Available in 8 caplet trial pack and 40 chewable caplets
- TGA Listed: AUST L 327128.

Directions for use

Chew or swallow 1 caplet just before consuming dairy. Adjust the dose to suit individual needs.

Lacteeze Double Strength should be taken every time you consume dairy products.

Lacteeze remains in the digestive system for about one hour. To consume more dairy after this time we recommend the dose is repeated.

Ingredients

Dextrose, lactase (9,000 ALU), microcrystalline cellulose, calcium stearate, natural vanilla flavour.

Active Ingredient

- Each chewable tablet contains Tilactase (9,000 ALU).
- Sourced from corn.
